Rafael E. Urbina N.

FULL STACK WEB DEVELOPER & ELECTRONICS ENGINEER

rafaelurbinan@hotmail.com   Maturín, 6201, Venezuela   +58-414-3826310

Profile

Electronics Engineer with over 15 years of experience working with Software Development using Visual Basic, C# and Mysql. I Started learning Web Development 5 years ago, and today I have 3+ years of professional experience working on the following technologies:

BackEnd: Node.js, Typescript, Next.js, Express.js (and libraries), Apollo Server (GraphQL), MongoDB, Mongoose, PostgreSQL, Mysql , Sequelize ORM, NextAuth, and more.

FrontEnd: HTML, CSS3, Sass, Javascript, Typescript, React.js, React Context, React Hooks, Redux, Redux-Actions, Redux-Thunk, Formik, Next.js, React-Router, Material UI, Ant Design, React-Bootstrap, Styled-Components, React-FontAwesome, Apollo Client and more.

I also have experience working with Unit and Integration Tests (using Jest + React Testing Library), e2e Testing with Cypress, Continuous Integration (Github Actions), and Containers / Images (Docker).

I invite you to visit my professional website: **https://rafaelurbinadevpro.com**
I currently have a permanent job at NativApps, Inc. , assigned to American Clients as a Senior Full Stack Developer and working on quite complex Applications.

Latest Projects:

Pressbox Live Project: A Single Page Application designed to provide sports information to important clients in the US and all over the world (TV Networks, Websites, Betting sites, sportbooks, magazines, and so on).

SecureFunds API: The project was designed from the ground up to enhance the entire transaction payment system currently working between brokers, agents and clients in the US's Real Estate Industry.
